2007-2008: DATES FOR YOUR DIARY

Autumn again and time for the working parties! - the bonus to start with is blackberries!

The summer has seen a number of guided walks - from Rosemary's local ones, to the Chichester Festivities to the U3A, and one more in October as part of the

Walks Festival. Buzzards and Kites are now regularly seen and the late summer flowers include all 3 bellflowers - the Hare Bell, Nettle-leaved bellflower and finally the splendid clustered bellflower - a real indicator of unimproved grassland.

Butterflies have been variable due to the weather - clouded yellows are still a real treat to see.

The "dates for your diaries" are as follows - we meet at Charlton cross roads at 10 am - ring me if doubtful about the weather - we usually work till just after lunch - c 3pm.:
